

Dura Green™ and Dura-Copper™ Hangers

Dura Green hangers are an ideal alternative to traditional hanger finishes. The durable epoxy finish out-performs both red primer and electro-zinc plated products in standard salt spray tests conducted in accordance with ASTM B117.

Dura Green is a water borne epoxy paint applied by cathodic electro disposition. The nine-step process delivers a corrosion-resistant bonding of coating to material, resists scratching and peeling, and was found to be a superior finish due to its proven application process.

Dura Green channel meets or exceeds 100 level clean room standards. This was confirmed by testing the channel in accordance with Boeing (PCL) Standards, which are more stringent and complete than ASTM E595-93.

It may look different but don't let looks deceive. Dura-Copper hangers and pipe straps combined with zinc plated hardware provide superior performance. In fact, Dura-Copper with zinc plated hardware out perform copper plating by a 10-to-1 ratio in laboratory salt spray tests.

Dura Green hanger features

- Out-performs Red Primer and Electro-Zinc plating
- Superior indoor corrosion protection
- Durable and scratch resistant
- Epoxy paint
- Electrically bonded finish
- Excellent for clean room applications -meets or exceeds 100 level clean room standards

Dura-Copper hanger features

- Out performs copper plating by 10-to-1
- No galvanic reaction
- No dissimilar metal contact
- Superior corrosion protection.
- Hardware does not come in contact with tubing
