Safety gratings

product line overview

Powering Business Worldwide

Safety for every walk of life™

Eaton offers a wide range of grating products for various commercial and industrial applications. From our Grip Strut safety grating to our Perf-O Grip grating, we offer a variety of slip-resistant walkway solutions for a variety of applications.

Grip Strut Safety Grating

Grip Strut™ safety grating features a unique one-piece diamond-shaped construction that provides slip-resistance in all directions. Its innovative design is suitable for walking and working surfaces where mud, ice, snow, grease, oil or detergents create slippery or hazardous conditions.

Features

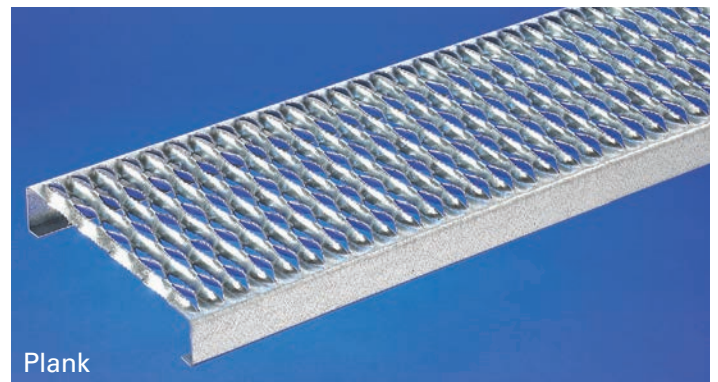

- Serrated surface to grab soles for safer walking surface
- Features an integrated toe board for faster installation
- High load capacity

Common Uses

- Work platforms, industrial flooring, catwalks, balconies, storage areas, walkways, and stair treads

Available Options

- 10 and 12 foot standard length options
- Galvanized, plain, stainless steel, or aluminum (finishes vary by size of plank)
- Relief hole available on 3, 4 and 5-diamond plank options

Perf-O Grip Grating

Perf-O Grip™ grating features a round hole grip pattern for maximum slip protection and performance under practically all conditions and in every direction.

Features

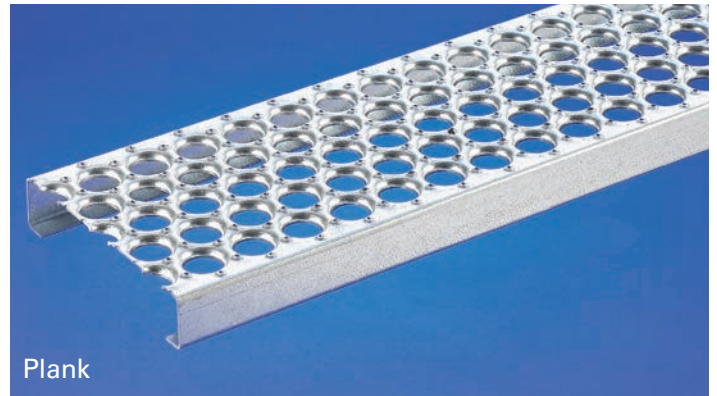

- Round hole grip pattern
- Light weight, yet sturdy, reliable design

Common Uses

- Walkways, stair treads and industrial flooring

Available Options

- 10 and 12 foot standard length options
- 11 or 13 gauge galvanized steel standard finish options
- 1.5 or 2 inch channel height planks in a variety of standard width options
- 5 inch channel height in 24, 30 or 36 inch width walkway

Traction Tread Grating – Plank, Sheet, & Ladder Rungs

Traction Tread™ panels feature perforated raised button surface that allows spillage to drain, as wells break oil film, detergent, and other slippery agents away from the walking surface.

Features

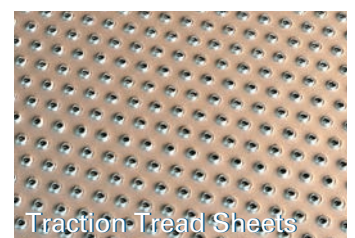

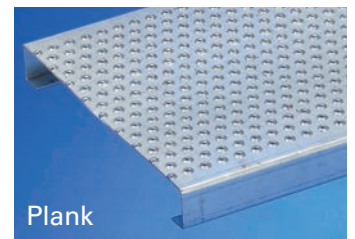

- Ideal for pedestrian traffic
- ADA compliant
- Useful anywhere a light slip-resistance flooring is required

Common Uses

- Pedestrian walkways, scaffolding planks, mezzanines, stair treads and resurfacing of worn materials

Available Options

- 10 and 12 foot plank length options
- 3 foot x 10 foot sheet
- 48.75 or 60 inch ladder run options
- Standard finishes:
 - Galvanized on planks
 - HRPO on sheets
 - 13 ga. steel or aluminum on ladder rungs
- A variety of hole patterns available

Grate-Lock™ Interlocking Mezzanine Grating

The Grate-Lock grating is an easy to install system of interlocking planks, treads and accessories that provide safe, sturdy footing for a variety of applications.

Features

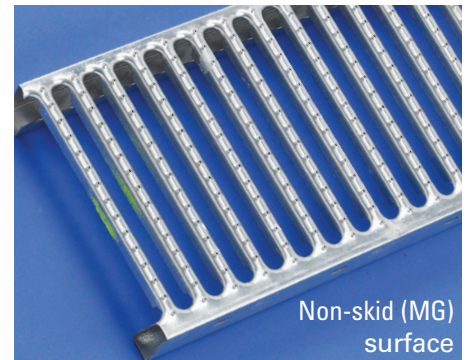

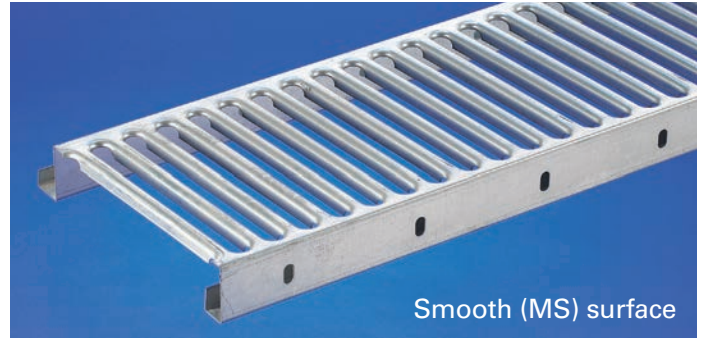

- Increased load performance
- Sole-gripping dimples

Common Uses

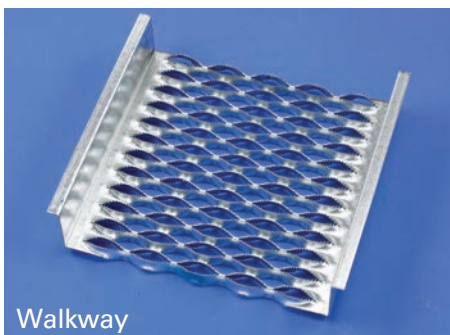

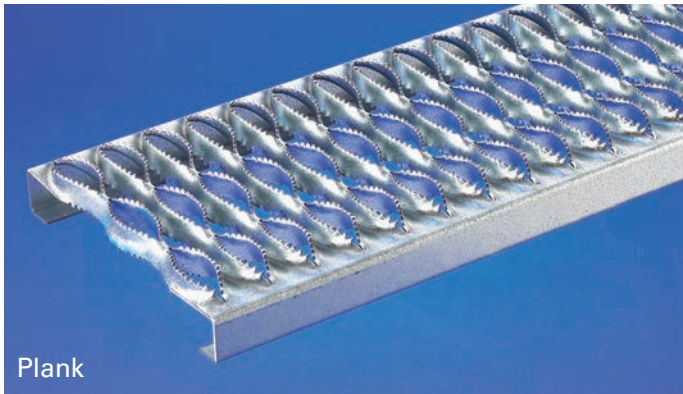

- Mezzanine floors, platforms, billboards, and walkways

Available Options

- 12 foot, 20 foot and 24 foot standard length options
- Female/Male (FM), Female/Female (FF), or Male/Male (MM) side channel options
- Smooth (MS) or non-skid (MG) surface options
- 14 and 18 gauge galvanized planks

Heavy Duty Grip Strut Safety Grating

Heavy Duty Grip Strut™ grating features the same superior design and strength of standard Grip Strut, and is available in one of the longest lengths available in the market today – up to 24 foot length. This coupled with the integrated toe board allows for lower total installed cost.

Features

- Unique one-piece diamond-shaped construction provides slip-resistance in all directions
- Suitable for walking and working surfaces where mud, ice, snow, grease, oil or detergents create slippery or hazardous conditions

Common Uses

- Process plant, grain elevator, refinery, concrete and aggregate, paper mills, mining and other industrial walkway or conveyor systems

Available Options

- 10 and 12 foot standard length options
- Spans of up to 24 feet'
