

Heavy-duty lube for the long haul

EATON®

Eaton Approved Lubricant

PS-386 Synthetic Transmission Fluid

Why PS-386 Synthetic Transmission Lubricant?

- Extended oil drain intervals (12.5 times longer than mineral oil drain intervals)
- Less downtime due to proven component durability
- Oil drain intervals extended out to 750,000 miles in some applications
- Improved shear stability results in longer gear and bearing life
- Improved oxidation resistance results in less staining and no sludging
- Eaton PS-386 approved lubricants demonstrated up to 1.5% improved fuel economy over previous approved lubricant

"We tested the PS-386 fluid with BASF & Eaton and found it offered us the outstanding durability we've come to expect from Eaton & BASF."

Allen Caldwell, manager, maintenance technology, First Fleet

- Reduces sump temperature
- Enhanced cold start properties

- Reduced gear wear
- Longer bearing life

- Less downtime due to increased component durability

- Tested in:
- 100 trucks
 - 18 months
 - 10,000,000 miles

- OEM factory fill
- Longer life
