

# 3940 Series PTO for Ford F-350®, F-450® and F-550® series trucks

The Bezares 3940 series PTO is designed to fit the Ford TorqShift 10 speed automatic transmission. A DIN 5462 output shaft and special output adapters provide versatility and allow for direct mounting of high pressure pumps, such as a bent axis piston pump, directly to the PTO.

#### Typical applications

- Sweepers
- Blowers
- Cranes
- Air compressors
- Dump
- Refuse
- Tow / Recovery
- Landscape
- Snow
- Service Trucks

#### Easily convert standard DIN output with additional bolt-on adapters:

Description	Part Number
Ford 3940 PTO with DIN output	PT3940POE783DA
3/4" 11T Adapter	PT806635
5/8" 9T Adapter	PT806735
7/8" 13T Adapter	PT806835

#### Features and benefits

- Simple: One part number with robust DIN output flange for gas and diesel engines
- Flexible: easily convert standard DIN output to SAE A 5/8"-9T, 3/4"-11T, or 7/8"-13T shaft with additional bolt-on adapters
- Quiet: engineered to produce less drivetrain noise
- Quicker, easier installation: unique profile saves up to one hour
- Pumps can be rotated at 45° intervals, greatly increasing pump options
- 230 lb-ft torque and 130% final output ratio
- All installation materials including wire harness included
