

Subject: New Convertible Transmission Models

Document Number: TMIB0138

Date: September 10, 2003

Updated:

Issue Description/Background:

Eaton Fuller has released 4 new convertible transmission models:

- RTOC-16909A
- RTOFC-16909A
- RTLOC-16909A-T2
- RTLOFC-16909A-T2

These models were developed at the request of our customers, who wanted fleet type transmissions (9 or 10-speed transmissions without a splitter button) that could later be converted and sold as 13-speed performance models. The convertible series models have the same fit-up as RTLO-16913A and RTLO-16913-T2 models with the exception of the shift knob and air lines, which are similar to a 9-speed. Oil cooler and lubrication requirements will be the same as RTLO-16913A.

Timing:

Currently available

Warranty Information:

To be eligible for conversion warranty coverage, the transmission must be used in a Linehaul application.

While in the 9-speed model configuration, these transmissions shall have a 5 year / 500,000 mile (800,000 kilometer) warranty coverage period. Once converted to the multi-speed configuration, the warranty shall be 1 year / 100,000 miles (160,000 Kilometers).

Transmissions converted prior to 3 years / 300,000 miles (480,000 kilometers) of service shall be warranted for the remainder of the 3 year / 300,000 mile or 1 year / 100,000 mile conversion warranty, whichever is greater.

Note: Transmissions must be converted prior to the expiration of the 5 year / 500,000 mile warranty to be eligible for the 1 year / 100,000 mile extension. The total warranty coverage period allowed for these models shall not exceed 6 years / 600,000 miles (960,000 kilometers) from the original "In Service" date or miles in which the transmission was installed.

Order Information:
