Spec your truck today!

Reward yourself by spec'ing a new truck with the ultimate drivetrain performance and *free extended warranty* in four easy steps:

Step 1: Select an Eaton RTLO-13 or RTLO-18 speed manual transmission

Our rugged manual transmissions have been the industry standard for years. With the Eaton 13 and 18-speed manual transmission, drivers will experience versatility and low-shift effort in a premium Fuller transmission. The innovative, patented design features a simple mainshaft, resulting in fast easy shifts.

Step 2: Select an Eaton Advantage Series Self-Adjust clutch

Building on over a hundred years of driveline design experience and millions of miles of proven durability, the new Advantage clutches are the smoothest and most durable clutches Eaton has developed.

Step 3: Fill with Eaton-approved lubricant

Eaton's PS-386 Synthetic Transmission Fluid is designed specifically to optimize performance in Eaton transmissions. PS-386 improves fuel economy, reduces friction and gear wear, and prolongs the life of your transmission.
