## Eaton's Arrow Hart Distillery line card

### Processing areas

Safely powering processing equipment is a must for any Distillery. **Eaton's Arrow Hart IP69K pin & sleeve** products deliver power safely to keep equipment running smoothly. For areas which require frequent washdowns, **watertight devices** and **X-Switch motor control disconnect switches** make the perfect combination.

### Bottling processing area

During the bottling process, reduce downtime and deliver labor savings with the Arrow Hart series **color coded locking devices** plus **motor control switches** which provide longer-lasting performance.

### Offices and tasting rooms

**Occupancy sensors and surge protection products** provide energy savings and surge protection for office spaces and equipment. **Dimmers and USB charging receptacles** enhance ambiance and provide convenient charging for your customers while they unwind.

### Entertainment areas

Eaton's **temporary power solutions** and **portable GFCIs** make power available for special events such as concerts and outdoor events. Control outdoor lighting loads with the use of our **astronomic programmable timer** which adjusts ON/OFF schedules based on sunrise/sunset times.
