# Eaton's home automation hub is a powerful gateway for your connected home. With a single app, it puts automation and energy management a touch away.

Eaton's home automation hub provides homeowners, builders and electrical contractors with a single, smart home solution for integrated automation and energy management.

Single app control: Manage lighting, security systems, locks, garage door openers, thermostats, cameras, entertainment networks, sensors and more.

Security enabled: Integrate with popular security systems to simplify control.

Simplified installation: Install the hub and Z-Wave based products with ad-hoc WiFi capability and mobile app.
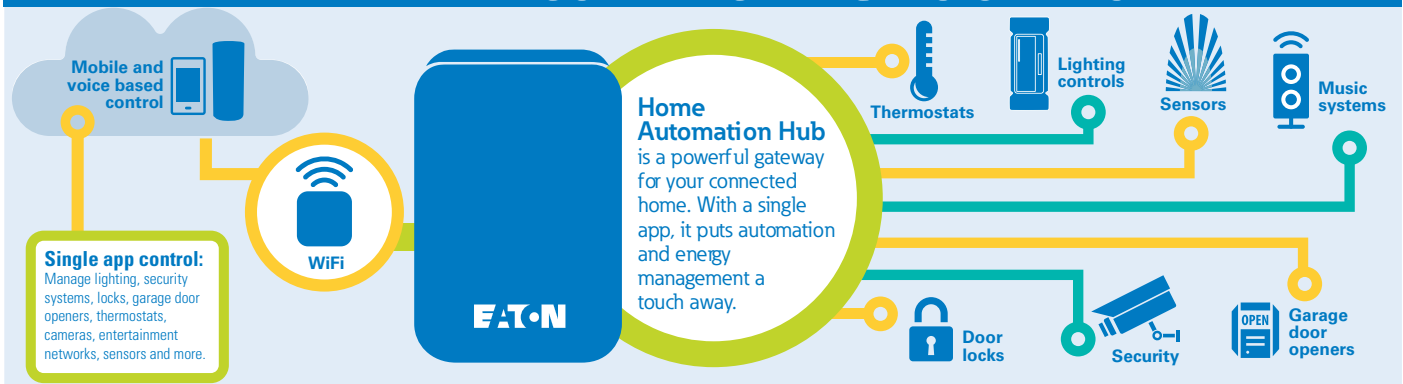

User interface: The intuitive mobile app works across different eco-systems and supports voice control.

Remote access: Allow users to access the system and connected devices away from home. (No subscription required)

Home automation hub

Product description

120V/AC/c.a/CA;
50/60Hz power supply

HOMECT

RF9540-NDW

RF9501DW

Design features

- Simple and quick installation
- App based local and remote control of hub and all devices connected to it
- AP/Ad-hoc WiFi mode for installation without an active internet connection
- Can be mounted on the wall or placed on a flat surface
- Powered by micro USB or Power over Ethernet (PoE). PoE injector sold separately
- Built-in WiFi and Z-Wave radios for connecting wide variety of smart home devices
- Automatic over the air software updates to ensure the device is always up to date
- Support for configurable scenes, schedules and notifications (text and email)
- Auto discovery and simple setup of popular smart home products including lighting controls, thermostats, garage door openers, door locks, sensors and more
- Works with Eaton Home App (available for IOS and Andriod devices)
- Works with Amazon Alexa for voice based control
