1, 2, 5	Rev 18 / April 2, 2020	77, 80	Remove EASA Only items 842100 and 843500 from list IAW MAG 7

John Muhvic (MRO Operations Manager)

4-3-2020

Date

ACCEPTED

Principal Airworthiness Inspector
Cleveland FSDO

EATON CORPORATION CAPABILITY LIST REVISION PROCESS

1.1 Establishment and Revision

This repair station may perform maintenance, preventive maintenance, or alterations on the articles listed in a Capability List. The Accountable Manager is responsible for ensuring that this repair station's Capability List is consistent with the repair station ratings. Before placing an article on the Capability List, the Chief Inspector will—

1. Determine that the article is within the scope of the repair station's ratings.
2. Perform a self-evaluation to determine that this repair station has the appropriate housing, facilities, equipment, material, technical data, processes, and trained personnel to perform the work on that article as required by Part 145.
3. Document the results of the self-evaluation.
4. Keep a copy of the self-evaluation assessment on file.

The Accountable Manager will review and approve the evaluation before establishing or revising the Capability List.

The following capabilities list provides accessories for which the repair station is rated. Modifications of this list must be approved by the FAA.

Note: The following capability list has been removed from the Repair Station Quality Manual (RSM) and is a stand-alone document. A list of effective pages has been added to maintain document control.
