Capability List IR Part 145 / FAR 145

Uncontrolled copy when printed

Function	Title	Name
Approved by (Process Owner)	Accountable Manager	Neil Somerville
Approved by (Secondary Process Owner/s)	Quality Manager	Jason Martin
Approved by (Secondary Process Owner/s)	Aftermarket Production Manager	Paul Atherton
Issuing Authority (Document Controller)	Senior Secretary, Quality - Titchfield	Carol Lock

Revision		Reason for change + Revision summary
Number	Date	
1	Nov 2013	Initial Issue Ref Legal Entity Change from Eaton Aerospace Ltd to Eaton Limited
2	Jun 2014	Procedure Format change and Full Review of Capability List. All parts not seen for the last two years were removed from the list. (If required to be added in future will be subject to the verification procedure). 18 parts added at Rev 2.
3	Oct 2014	Document Number for the FAA Supplement, changed from BM-117 to BM-WI-003-2 to reflect latest document format. Addition of 35 items – shown in bold text - and removal of Pt No 68-0002 Pressure Switch.
4	May 2015	Addition of 27 items – shown in bold text. 568-1-30750-102 AND -568-1-30750-151 removed as covered by 568-1-30750-SERIES
5	Jan 2016	Addition of 32 items – Shown in bold text
6	Jan 2017	Addition of 78 items – Shown in bold text
7	Jun 2017	Full Review of Capability List resulting in changing individual Part Numbers to – SERIES where possible. 61 additions made. Changes shown in BOLD type. Rating C14 added.

8	Mar 2020	<ul style="list-style-type: none"> - Additional page added to accommodate revision summary - Accountable Manager changed from Ben Bryson to Neil Somerville - Quality Manager changed from Ian Dickson to Jason Martin - Aftermarket Production Manager added - Section 3 Related Documents changed to replace BM-003, BM-WI-003-1 & BM-WI-003-2 with TF-BM-003, TF-BM-WI-003-1 & TF-BM-WI-003-2. - Addition of 26 items – Shown in bold text

* It is the responsibility of the Process Owner to ensure this document is reviewed within a 2 year period. Note: all updates require communication and training with records to be maintained.

Table of Contents

1.	Purpose:.....	4
2.	Scope:.....	4
3.	Related Documents.....	4
4.	Responsibilities	4
5.	Document Maintenance	4
6.	APPENDIX A - CAPABILITY LIST – TITCHFIELD.....	6

1. Purpose:

The purpose of this document is to detail the components on which the company, at the addresses detailed on the title page of this document, has capability to perform repair and overhaul activities and thereby defines the scope of approval granted to the company by both the Federal Aviation Administration (FAA) and Civil Aviation Authority (CAA) under Federal Aviation Regulation (FAR) Part 145 and European Aviation Safety Agency (EASA) Implementing Rules (IR) Part 145 respectively.

Components itemised in these lists (Appendix A) are complete assemblies, however, the individual piece parts and sub-assemblies of these are also considered to be covered by the entry in the list of the complete assembly.

2. Scope:

The Approved Maintenance Organisation at the Titchfield Plant of Eaton Limited.

3. Related Documents

TF-BM-003	Maintenance Organisation Exposition.
TF-BM-WI-003-1	Transport Canada Civil Aviation – Supplement
TF-BM-WI-003-2	FAA Supplement

4. Responsibilities

Refer to TF-BM-003 for responsibilities of Accountable Manager, Quality Manager and additional Form 4 Holders.

5. Document Maintenance

Requirements for additions

The company will not undertake the Repair or Overhaul of any component unless that component is detailed in the Capability List or a revision to the Capability List on Form BM-F-004-1 has been verified and accepted by the Quality Department on behalf of both the EASA and FAA.

Prior to verification and acceptance of an addition to BM-004 the company will ensure that the following are available:

- Relevant technical data, such as Overhaul Manuals etc., issued through the appropriate control systems.
- Sufficient qualified personnel capable of performing the maintenance activities on the subject components.
- All the tools, materials and test equipment as required by the relevant technical data.
- Suitable facilities, e.g. benches, plant and machinery, etc.

If the additional component is not covered by the ratings within the company's scope of approval from the EASA and FAA, then a request for the relevant rating to be added will be made as part of the submission for additional capability.

5.2 Incorporation of Amendment

Once the requirements of para 5.1 have been met, the completed form BM-F-004-1 will be accepted. Each form will be numbered uniquely and sequentially.

Details of the changes along with copies of completed BM-F-004-1 forms will be retained as history within the Quality Department.

A monthly review of the Capability list will be conducted by the Quality Department with the aim of a formal reissue six monthly or more frequently if the need arises. All amendments to BM-004 Capability List will be incorporated at the 6 monthly reviews and sent to the CAA for acceptance on behalf of EASA / FAA.

CAA Address

Civil Aviation Authority, Aviation House, Gatwick Airport South, West Sussex RH6 0YR
