Device Driver Categories

Device Type	Description	Examples (not all inclusive)
AC	HVAC Systems	Liebert, Airflow, APC, DataAire
ATS	Automatic Transfer Switch	ASCO, Cutler-Hammer, GE Zenith
BAS	Building Automation Systems; encompasses systems variously known as Building Management Systems, SCADA	Siemens Apogee, Rockwell RSView, Tridium Niagara JACE, Johnson Controls, Alerton, Automated Logic
BCM	Branch Circuit Monitor	Powerware EMS, Veris H704, PDI BCMS
BMS	Battery Monitor System	Alber, BTech, Cellwatch
Chiller	Chiller Plants and In-row rack chillers	APC, Carrier, Liebert
DAQ	Data Acquisition Module; typically converts digital and analog signals into Serial and Ethernet protocols. Often DAQ devices support several types of sensors to monitor temp, humidity, door status, leaks, luminosity, and others.	Foreseer DAT and UIE II, Sensatronics, Netbotz, Netguardian
DCPlant	DC Power Plat; typically consists of a system or controller component, and some number of rectifies.	Benning, Eaton Swichtec
Env	Environmental Monitor; Temp humidity probes and controllers, Xfmr temp monitors, particle counters,	APC ISX Env Monitor, Eaton EMP, Lighthouse particle counter
Fire	Fire Panels	Fike, Kidde-Fenwal, Siemens
Fuel	Fuel and Tank Monitors	Earthsafe, Omntec, Pneumercator, Veeder-Root
GenSet	Generator Sets and GenSet Controllers	Basler Controllers, Caterpillar, Kohler, Onan
Leak	Leak Detection Systems	Liebert, RLE, Tracetek
Meter	Power Meters; does not include branch circuit monitors	Cutler-Hammer, Eaton, SquareD, Siemens, ElectroIndustries, PML
Misc	Miscellaneous category, for those devices that just don't fit well iwth others	C-H TVSS, Maintenance Scheduler, Unicass Lone Worker Monitor
PDU	Power Distribution Unit; does not include RPP or rack power strips.	APC, Liebert, PDI, Powerware
PLC	Programmable Logic Controller. Many devices include PLCs for commuications gateways, protocol translation, and as the brains of whatever system they are incorporated into; this driver category is typically for stand-alone PLCs that are not better described as a larger "system"	Allen-Bradley, Eaton ELC, Modicon, TWIDO
PowerStrip	Rack Power Strip	Powerware ePDU, APC, BayTech
Protocol	Open protocol drivers, which are used as the basis for developing drivers for devices that support the protocol.	Modbus, SNMP, BACnetIP, OPC
Relay	Protective Relay. Includes relays that protect feeders, motor control, generator, and others from power faults and surges.	Basler, Cutler-Hammer, Schweitzer Lans (SEL), Siemens
RPP	Remote Power Panel	APC, Liebert, PDI, Powerware
STS	Static Transfer Switch	Cyberex, Eaton, Liebert
Switchgear	Power Train Control, where GenSets, ATs, Relays, and Metering are being monitored and controlled by a supervisory system	CAT-ISO, ASCO VPI
Trip	Trip units	Cutler-Hammer, GE, Siemens, SquareD, ElectroIndustries, PML
UPS	Uninterruptible Power Supply; includes battery and flywheel systems	Active Power, APC, Liebert, Powerware
VFD	Variable Frequency Drive	ABB, Eatoon, Yasakawa
Weather	Weather Stations, Temp and Humidity Sensors	Boltek Lightning Detection, Davis Weather Stations, Rugid Computer Weather Station
