

# Havant Travel Guide

A blurred photograph of an airport terminal. In the foreground, several people are walking, their figures out of focus. In the background, a large white airplane is parked on the tarmac, with its cabin door open and a boarding bridge attached. The scene is lit with soft, natural light, suggesting an overcast day.

## About Us

The EMEA Hydraulics Training Centre was established in 2018, following the successes achieved in the USA by our colleagues at the Eaton North American Hydraulics Group Training Centre in Maumee, OH and Eden Prairie, MN.

The European Hydraulics Training Centre offers world-class Systems training in all areas of hydraulics, ranging from introductory classes for new starters and non-technical employees, through to advanced-level Industrial, Mobile and Offshore hydraulics and up to expert-level training in design, troubleshooting, proportional hydraulics and closed-loop control. In addition to this, the Training Centre also offers a broad range of Products courses covering the whole range of Eaton's hydraulics portfolio.

Classes are delivered at Eaton's brand-new Training Centre in Havant, UK, which features three well-appointed and comfortable classrooms and state-of-the-art training stands on which attendees can put their new-found skills to the test in a safe and controlled environment.

As well as teaching about hydraulic technology and the Eaton range of products, attendees will also learn how to work safely with today's modern brand of industrial and mobile

machinery, ensuring that attendees return to work more knowledgeable, with better skills and able to work safely and confidently with all kinds of hydraulic systems.

## Our Facilities

The European Hydraulics Training Centre sits inside the Eaton Havant Plant. The Havant Plant is a 300,000 square foot facility which is the central production facility of Power and motion control products of Eaton in Europe. The Training Centre itself occupies 4,700 square feet of the Havant facility, and boasts three classrooms, a dining area and a training hall filled with industry-leading training rigs and didactic equipment to enrich the student experience.

## Working with you

### Course Details

To learn more about the courses on offer at Eaton's European Hydraulics Training Centre, please refer to our Course Planner, which can be found on our website [www.eaton.com](http://www.eaton.com)

### Contact Details

Our team is happy to work with you to understand your individual needs and find the best training solution for your people and teams.

For course enquiries and enrolment of non-Eaton employees, please contact our Training Manager:

# Getting to Havant (1)

## Where is the European Training Centre?

### Havant, UK

The European Training Centre is located in Havant, UK. Havant is a small town on the south coast of England, some 60 miles from London. The town boasts a good range of amenities, services and entertainment options for those travelling to the area.

## Flying into the UK from Europe & overseas

The easiest way to reach Havant from abroad is to fly into Heathrow or Gatwick airport, both of which are around 60 miles from the Training Centre. It will take around 60-90 minutes to get from either airport to Havant.

## Getting from the airport to Havant

The cheapest way to get from Heathrow or Gatwick airport to Havant is by taking the train to Havant Train Station. Train tickets can be booked online and in advance to get the best price for your journey (for example, using [www.thetrainline.com](http://www.thetrainline.com)). Tickets should cost around £20-40 per direction.

From Gatwick airport, there are trains every 30 minutes throughout the day. The journey to Havant will take 60-90 minutes.

From Heathrow airport, you must first take a bus (107) to Woking, duration 45 minutes. From there, it is a 1 minute walk to Woking Train Station. The train to Havant departs from platform 5, duration 50 minutes.

Train tickets can be bought using credit card or cash (GBP). Note that American Express is not widely used in the UK, so please make sure you have an alternative card (for example a Mastercard or VISA debit/credit card).

Some bus stations may have a ticket machine which accepts credit card payment (Mastercard or VISA debit/credit card) but cash (GBP) is the better choice here.

## Other airports

Some visitors may also be able to make use of Southampton airport, which is only 22 miles from Havant. In this case, the cheapest way of travelling from the airport to Havant is by taxi. This should cost around £30. Note that cash (GBP) will be required to pay for the taxi. Tipping one or two pounds is a nice touch, but not absolutely expected.

## Travelling by Taxi

Instead of taking the train, another option (especially for larger groups), is to share a taxi. A taxi can be pre-booked from one of the following companies. Alternatively you may hail a taxi from outside the airport without prebooking, but beware, the price may be higher! Getting from Heathrow or Gatwick to Havant should cost around £100-150 (GBP). Note that cash (GBP) will be required to pay for the taxi. Tipping one or two pounds is a nice touch, but not absolutely expected.

## Lukso:

Best quality <http://www.lukso.co.uk/>

Office hours are 9am-5.30pm, with emergency contact available 24/7

**Phone:** +44 2392 259 483

Email: [contact@lukso.co.uk](mailto:contact@lukso.co.uk)

## AndiCars:

Local taxi company. They do local trips but can also do airport transfers. We have a corporate account with them – state you are with Eaton.

**Phone:** +44 2392 350 350

## Uber:

Uber is working fast and reliable in the UK. The benefit is that you will get a safe service, however you need to have the App set up in your mobile phone, and can set it up only with Visa or MasterCard. Using Uber can, in some circumstances, save you around 10% compared to traditional taxi companies.

## Vision travel coach hire:

Larger groups of people. This may be a better solution for transporting everyone to and from Havant, the hotel and any excursions.

**Phone:** +44 2392 359 168

## Getting to the Training Centre by car

Postcode for Satnav: **PO9 2NB**

Full address: 46 New Lane,  
Havant, PO9 2NB

Visitors travelling to Havant by car from the north can take one of two main routes:

### M1 / M25 / A3 route:

1. Take the M1 south to junction 6a
2. Follow the M25 (west) signposted Heathrow to junction 10
3. Take the A3 (south) and A3(M)
4. Leave the A3(M) and follow the signposts for Havant

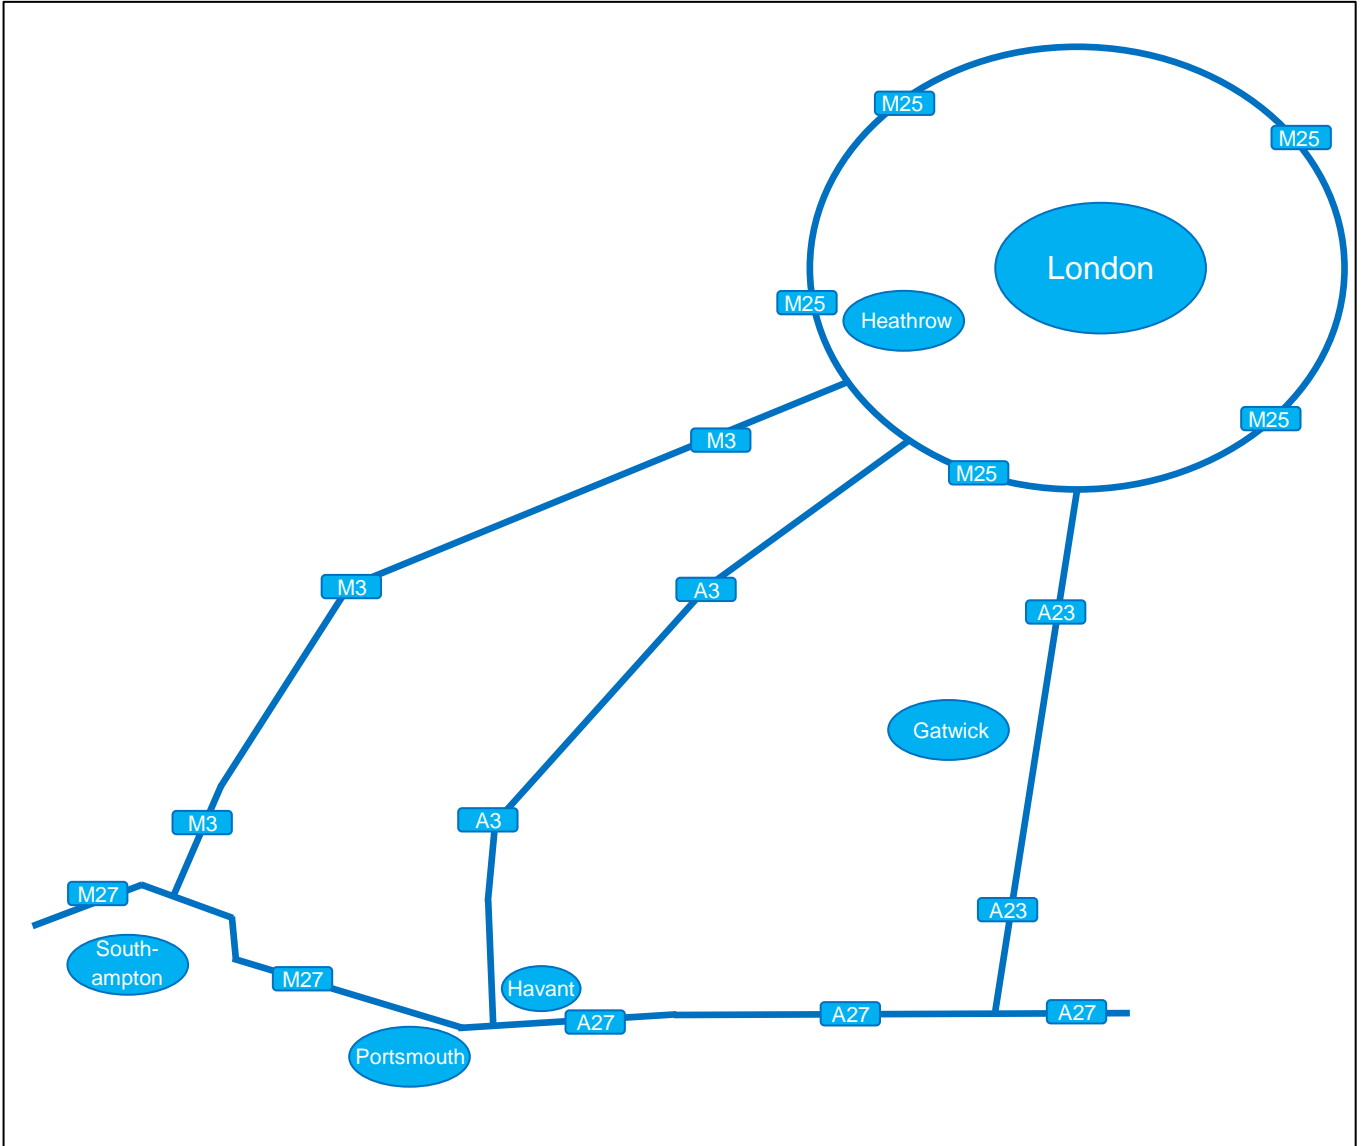

### M1 / M69 / M40 / A34 / M3 / M27 / A27 route:

1. Take the M1 south to junction 21
2. Take the M69
3. Take the A46
4. Take the M40 south-east toward London
5. Take the A34 south toward Newbury
6. Take the M3 south
7. Take the M27
8. Take the A27 into Havant

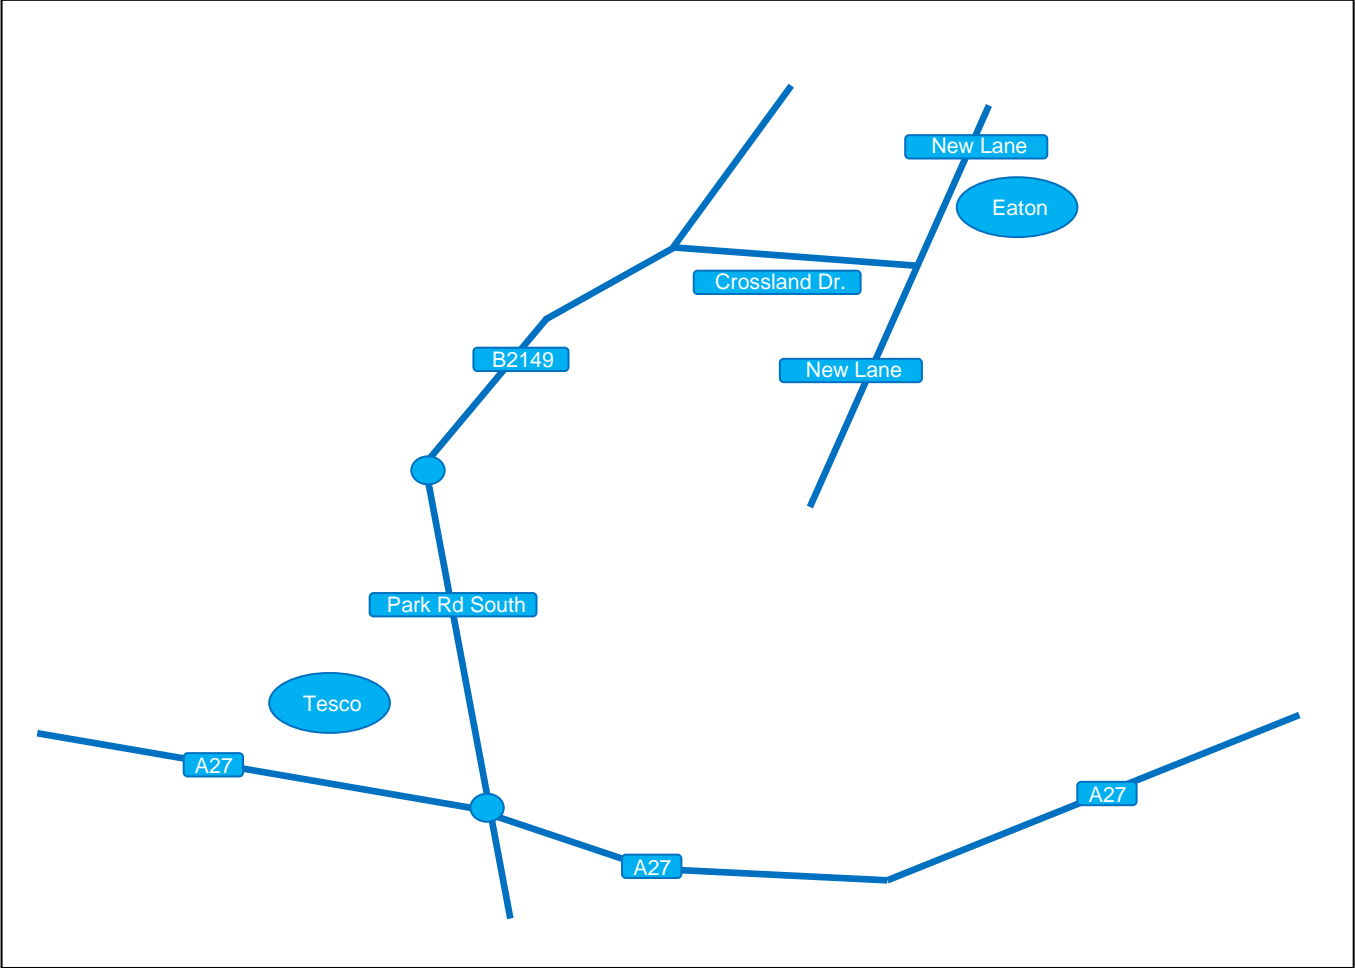

**Note:** All travel, flights, hotel accommodation, breakfast & evening meals should be arranged and paid for by the attendee – they are *not* included as part of the course price.

## Staying in Havant

### Local Hotels

Havant is well-served by several very good tried-and-tested hotels:

#### The Langstone Hotel

<https://www.langstonehotel.co.uk/>

The Langstone Hotel on Hayling Island is 2 miles (< 10 minutes) from the Havant plant.

They have a corporate rate of £70/night for bed & breakfast set up for Eaton employees & visitors.

#### The Brookfield Hotel

<https://brookfieldhotel.co.uk/>

The Brookfield Hotel in Emsworth is 2 miles (< 10 minutes) from the Havant plant.

There is no corporate rate agreed, so booking early is recommended.

## Recommended Restaurants

As well as eating at the hotel, Havant and the surrounding area also boasts an impressive range of restaurants, bars and traditional English pubs to cater for your every need.

### Chilli & Lime Indian Restaurant

Phone: +44 23 9248 4273

Address: 58 West St, Havant PO9 1PG

Excellent Indian/Bangladeshi cuisine, strongly recommended by the Training Manager!

Note – parking at rear
